

GENERAL HIRE CONDITIONS

All equipment on hire remains the property of MASON MORLEY LTD. Who are the owners, and hereinafter referred to as the Owners.

Carriage undertaken by the Owners is not included in the hire rate and will be charged as an extra cost.

The period of hire commences on the date the equipment leaves the Owners and ceases on the day it is returned.

PLEASE NOTE if the equipment is to be collected, it is the responsibility of the hirer to notify the Owners **ON THE DAY THE HIRE IS COMPLETED**. Hire charges will then be made up to the date of this call. **TERMINATIONS OF HIRE CANNOT BE ACCEPTED IN ADVANCE.**

All equipment is supplied to the hirer in good condition. The hirer will be charged with the cost of repair for any damage other than fair wear and tear and the current cost of replacement to the Owners in the event of loss.

The Owners will not be held responsible for any damage which may be caused by the equipment whilst it is being operated by, or in the care of the hirer or his agent.

Where the equipment comprises electrical equipment in part or in whole the same should normally be used with plugs and/or sockets as fitted but if temporarily replaced with other suitable plugs or sockets, this must be carried out by a competent person who must also reinstate to the original condition. Under no circumstances should electrical equipment be used without it being correctly earthed unless it is of double insulated construction.

The hirer shall keep himself acquainted with the state and condition of the equipment and ensure that it remains safe, serviceable and clean. Any breakdown or any unsatisfactory working of equipment must be immediately notified to the Owners. Under no circumstances shall the hirer repair or attempt to repair the equipment unless authorised by the owners. Such equipment must be returned to the owners' premises for examination, or when rectification elsewhere is requested, the hirer agrees to pay carriage if required by the Owners.

Where the Owner agrees to a site visit, appropriate charges will be made, if the 'breakdown' is a result of negligence by the hirer, or use of inferior quality materials within the equipment.

Under no circumstance shall the Owner be responsible for 'down-time' or consequential loss by the hirer due to faulty, or mechanical/electrical failure.

We recommend that users arrange for their own appropriate insurance to persons and equipment during the hire period, including public liability where necessary. Equipment when on hire is NOT insured by the Owners and is the responsibility of the hirer.

Hirers must be aware of dangers on certain items and it is the hirers responsibility to gain advice on the use of equipment hired from the Owners, whether from the Owners or some other authorised source and before use to make sure they obtain and wear any protective clothing necessary. Responsibility for bodily harm to any person or property howsoever caused, by, or as a result of equipment hired from the Owners is carried totally by the hirer or his agent.

Re-hire of equipment is not allowed unless with written consent from the Owners.

NON-ACCOUNT CUSTOMERS PLEASE NOTE

**A DEPOSIT PLUS ONE WEEK'S HIRE CHARGE
IN ADVANCE WILL BE REQUIRED ON EACH UNIT.**
